

Commerce, Justice and Science Requests: Total \$13,137,000

Project Location	Recipient Name	Project Name	Project Purpose	Amount Received (in thousands)
Cheshire County, NH	City of Keene Police Department	Keene Police Department Body-Worn and In-Car Camera Systems	This project would provide funding for 50 Body Worn Camera (BWC) units and equip 16 cruisers with integrated In-Car Video Systems, as well as associated Wireless Access Points and necessary training and start-up equipment. It would also provide the Keene Police Department (PD) with unlimited cloud storage and the software necessary to run the program and conduct redaction as necessary for Right to Know requests based on NH Statute. Keene PD is requesting this funding to meet the NH Law Enforcement Accountability, Community, and Transparency Commission's recommendation to implement BWC programs in all New Hampshire law enforcement agencies as part of New Hampshire law enforcement reforms.	\$415
Cheshire County, NH	Cheshire County Sheriff's Office	Cheshire County Sheriff's Office Radio Communications System	This project would replace Cheshire County Sherriff's Office Dispatch Center existing public safety and emergency communications network with a wide area digital network radio system. The	\$750

			<p>project will also support engineering studies that will provide recommendations for the strategic placement and best use of the remote radio and relay sites and provide solutions that best address how to fill in radio communications gaps in the highly rural areas.</p>	
Concord, NH	McAuliffe-Shepard Discovery Center	McAuliffe-Shepard Discovery Center Planetarium Enhancements	<p>This project would replace the Discovery Center's 92 planetarium seats (installed in 1990) with new adjustable seating that would provide a better view of presentations on the Center's overhead domed screen. The funds would also allow for the Center to replace their old projectors with a newer, more energy-efficient model.</p>	\$348
Durham, NH	University of New Hampshire	University of New Hampshire Magnetometer Research and Education Facility	<p>This proposal builds on the University of New Hampshire's (UNH) efforts to construct a unique, ultra-sensitive magnetometer array to better understand how Earth's geomagnetic environment responds to space weather generated by the sun. This work, and these instruments, help build interest in STEM and space research at the undergraduate level through Space Weather UnderGround (SWUG), and graduate level through federal projects where students in the SWUG can get hands-on experience</p>	\$501

			with flight instrumentation.	
Exeter, NH	Town of Exeter Police Department	Exeter Police Department Body-Worn Cameras and Training	This project would provide funding for the Exeter Police Department (PD) to purchase body-worn camera (BWC) units and equip cruisers with integrated In-Car Video Systems, as well as associated Wireless Access Points and necessary training and start-up equipment. Exeter PD is requesting this funding to meet the New Hampshire Law Enforcement Accountability, Community, and Transparency Commission's recommendation to implement BWC programs in all New Hampshire law enforcement agencies as part of New Hampshire law enforcement reforms.	\$232
Greenland, NH	Greenland Police Department	Greenland Police Department Body Camera Upgrades	This project would allow the Greenland Police Department (PD) to purchase 9 body-worn camera (BWC) units and access the cloud storage and the software necessary to run the program and conduct redaction as necessary for Right to Know requests based on New Hampshire Statute. Greenland PD is requesting this funding to meet the New Hampshire Law Enforcement Accountability, Community, and Transparency	\$70

			Commission's recommendation to implement BWC programs in all New Hampshire law enforcement agencies as part of New Hampshire law enforcement reforms.	
Greenland, NH	Greenland Police Department	Greenland Police Department Security Technology Enhancements	This project would fund the installation of an electronic (via cards or fobs) key security system for the Greenland Police Station, which would provide documentation of who enters/leaves, access to the property/evidence room and building security. The funds would cover the cost of the physical security system (estimated at 5 electronic entrances and 15 cards/fobs to be issued to authorized employees), and the computer and/or software needed to run/control the system.	\$15
Hillsborough County, NH	Merrimack Police Department	Town of Merrimack Radio Infrastructure Upgrades	This project would fund the Merrimack Police Department and Fire Department's efforts to upgrade their existing radio system to an 800 megahertz (MHz) digital trunked radio system in order to alleviate current coverage issues. Both departments have had radio coverage issues while trying to transmit inside large structures and other geographically compromised areas.	\$1,472

Nashua, NH	Nashua Police Department	Nashua Police Department Interpretation and Translation Services	This project would allow the Nashua Police Department (PD) to provide interpretation and translation services to community members. Currently, this service is not provided due to a lack of local resources. Nashua PD would contract with an outside vendor who would provide interpretation and translation 24/7 via phone as well as video conference in both the field and a formal setting.	\$95
Strafford County, NH	University of New Hampshire	Jackson Estuarine Lab Expansion and Renovation	This project would expand and renovate the University of New Hampshire Jackson Estuarine Lab (JEL) by 4,000 sq ft. to: 1) launch a state-of-the-art water quality lab that can leverage UNH's investment in genomic sequencing, better engage federal, state, and local partners, and provide real time monitoring of the Great Bay Estuarine System; 2) provide local support through a new high bay space for marine operations (manned, autonomous), aquaculture systems for sustainable seafood, expanded diving, and field operations; and 3) create convening space to support Federal, state, and community engagement and coordination.	\$3,813
Rockingham and Strafford Counties, NH	NH Fish and Game Department	Improving Protections for Endangered North Atlantic Right Whales and Mitigating	This project would fund New Hampshire Fish and Game outreach efforts to inform the New Hampshire	\$50

		Regulatory Impacts on U.S. Fisheries	<p>fishing industry of NOAA’s proposed rule related to Agency-required efforts to reduce the risk of injury and mortality to the North Atlantic Right Whales. The funds provided by the request would assist in the development of outreach materials and meetings with the industry to outline the current issues and obtain input on remedies that will help the lobstermen comply with the proposed rule modifications.</p>	
Statewide, NH	NH Department of Justice	Statewide Law Enforcement Community Policing Initiative	<p>This CDS project would allow the New Hampshire Department of Justice to solicit applications from New Hampshire Law Enforcement for one-time capital expenses, security upgrades and community police initiatives. This will include funding for body and dashboard cameras, radio system upgrades, bulletproof vests, stipends for training of police officers and community policing initiatives. This will allow law enforcement agencies to make important upgrades that may not have been available because of limited local budgets.</p>	\$500
Statewide, NH	NH Department of Safety – Division of State Police	Statewide Digital Law Enforcement Equipment and Technology Training	<p>This CDS proposal would provide the New Hampshire State Police with funding needed to obtain hardware, software and additional training to appropriately respond to</p>	\$1,224

			<p>the rise in digital crime. The project will allow the NH State Police Department of Special Investigation to provide improved, free services to local law enforcement agencies as well as expanded training for forensics lab staff.</p>	
Statewide, NH	Plymouth State University	Technology and Equipment Upgrades	<p>This project would fund upgrades to the Plymouth State University's (PSU) Draper & Maynard Outfitting the Electromechanical Technology and Robotics (EMTR) Lab with new technology and equipment. EMTR is a new PSU four-year program that aims to prepare students for state-of-the-industry technology careers in robotics, automation and IoT (Internet of Things) technology platforms.</p>	\$1,000
Strafford County, NH	Durham Department of Public Safety	Durham Radio Communications Infrastructure Upgrades	<p>This project would replace the Town of Durham's existing public safety and emergency services land mobile radio (LMR) communications equipment infrastructure which is obsolete and unserviceable, with new modern technology and equipment. The Town of Durham and Strafford County government are collaborating with Motorola Solutions to build an updated communications system. The project is shovel-ready (pending funding) and can</p>	\$900

			be constructed over a 12 to 18 month period.	
Strafford County, NH	Strafford County	Strafford County Radio Infrastructure Upgrades	This project would allow Strafford County to build out an engineered two-way radio system to cover the current needs of all County Law Enforcement, Fire, EMS and Emergency Management Entities. This system will provide portable radio coverage at an industry standard of 95% coverage area and 95% reliability county-wide to increase responder safety and coordination by having reliable and improved coverage.	\$752
Portsmouth, NH	Municipal Alliance for Adaptive Management	Great Bay Estuary Restoration Plan	This funding will support the Municipal Alliance for Adaptive Management to implement an adaptive management framework to provide greater long-term flexibility for meeting regulatory compliance and a more collaborative framework for protecting and promoting water quality throughout the Great Bay Estuary watershed.	1,000

Homeland Security Requests: Total \$743,000

Project Location	Recipient Name	Project Name	Project Purpose	Amount Received (in thousands)
-------------------------	-----------------------	---------------------	------------------------	---------------------------------------

Durham, NH	Town of Durham Department of Public Works	Town of Durham Emergency Generators	This congressionally directed spending request would assist the Town of Durham in purchasing generators for two town water pump stations, the Durham Police Station and town public works facility. These backup generators at the water pumping station would ensure residents in Durham as well as the University of New Hampshire continue to have water in the event of a prolonged power outage.	\$543
Hampstead, NH	Hampstead Fire Department	Town of Hampstead Emergency Operations Center Renovation	This congressionally directed spending request would support efforts by the Town of Hampstead to renovate an existing fire station into a fully interoperable Emergency Operating Center (EOC) that will improve the town's ability to coordinate information and emergency resources.	\$200

Interior Requests: Total \$13,260,000

Project Location	Recipient Name	Project Name	Project Purpose	Amount Received (in thousands)
Canaan, NH	Town and Village of Canaan	Canaan Leaded Water Line Replacement and River Crossing Protection	This project replaces and enhances drinking water infrastructure, including leaded water line replacement and river crossing protection.	\$1,470
Concord, NH	NH Preservation Alliance	Concord Gasholder Building Restoration	This project rescues, restores and revives the vacant Gasholder building in Concord, listed on the National Register of Historic Places (2018) and documented by the Historic	\$500

			American Engineering Record (1984). This distinctive 88' diameter brick structure with a wooden cupola is a visible and significant landmark in the capital city. This rare survivor is one of 14 known gasholders in the U.S. and is the only one to have its inner workings intact. Major roof damage nearly a decade ago caused water infiltration that has made the vacant and unused landmark extremely vulnerable.	
Conway, NH	Conway Village Fire District	Conway Sewer Main Rehabilitation	This project would address sources of inflow and infiltration into aging sewer lines to reduce flows within the system and ensure sewage is not leaking into groundwater.	\$1,000
Exeter, NH	Town of Exeter	Webster Avenue Pump Station Rehabilitation Project	This project upgrades the Webster Ave sewer pump station and appurtenances, which will provide for greater commercial and residential development in the sewershed, including the expansion of Exeter Hospital.	\$1,050
Gorham, NH	U.S. Forest Service	Planning and Implementation of Improvements on the Franconia Ridge Trail, White Mountains NF	Franconia Ridge Trail is one of the most popular of all the White Mountain National Forest trails and is also part of the famed Appalachian Trail (AT). The trail work would concentrate on installing structures to better define the trail to keep hikers from veering off the path and trampling fragile alpine vegetation, of which	\$1,125

			the East Coast has so little. Trail work would also focus on installing rock steps and water bars to protect the trail from further erosion.	
Greenville, NH	Town of Greenville	Greenville Wastewater Treatment Plant Chemical Feed Building	Funding would address the design and construction of a chemical feed facility to achieve compliance with a NPDES permit in furtherance of State and Federal environmental goals, while limiting further economic hardship on a community which is already facing significant financial limitations.	\$750
Keene, NH	City of Keene	Keene Sewer Force Main Inspection and Rehabilitation	Funding would be used to do an engineering assessment of the sewer force main to determine condition, identify weak points/areas at high risk of failure and the work to repair these areas.	\$325
Milan, NH	Nansen Ski Club	Big Nansen Ski Jump Historic Site Preservation	This federal appropriation will be used to help in the preservation of the Big Nansen Ski Jump, a historic site registered on the National Register of Historic Places, in Milan, NH. The Big Nansen Ski Jump was once the largest ski jump in the world and used for several Olympic Trials, including the 1938 trials, and other national championships. This appropriation will be used to address structural issues associated with the site's aging infrastructure.	\$500

Newport, NH	Town of Newport	Town of Newport Renovation of Wastewater Treatment Plant	Engineering for preliminary and final design, project bidding and selection, and construction inspection of the wastewater treatment plant upgrade.	\$1,936
Rochester, NH	City of Rochester	Rochester Septic Receiving Facility Upgrades	The proposed project will provide upgrades to the City's wastewater treatment plant septic receiving area which are necessary to comply with EPA's Great Bay Total Nitrogen General Permit effective February 2021. Funding for this project will be allocated for the engineering design and the construction of a modern and user-friendly system to collect and treat waste from septic systems in Rochester, NH. The project will protect public health and reduce in non-point source nitrogen loading to the Great Bay watershed by providing a reliable means for septage disposal. This project is included in the State's Clean Water SRF Intended Use Plan.	\$900
Lyme, Canaan, Hanover, and Dorchester, NH,	U.S. Fish and Wildlife Service, Silvio O. Conte NFWR	Silvio O. Conte NFWR NH Land Acquisition	Funding for this project will support federal acquisition of a conservation easement by USFWS of more than 4,092 acres of priority lands in New Hampshire from a willing seller (Bear Hill Conservancy) as additions to the Silvio O. Conte National Fish and Wildlife Refuge (Conte Refuge), which spans the	\$3,700

four-state Connecticut River watershed.

Labor and Health and Human Services Requests: Total \$16,775,000

Project Location	Recipient Name	Project Name	Project Purpose	Amount Received (in thousands)
Berlin, NH	Coos County Family Health Services	Expansion of Safety Net Dental Clinic	This funding will help Coos County Family Health Services renovate and retrofit a building in downtown Berlin in order to expand their safety net dental clinic and serve more patients in this underserved community.	\$1,500
Carroll, Coos, Grafton and Sullivan Counties, NH	Northern New England Perinatal Quality Improvement	Simulation Training for Obstetric and Neonatal Emergencies (STONE)	The STONE pilot project would bring together Dartmouth-Hitchcock physicians and experts to provide simulation training for rural emergency room and EMS personnel and will also utilize tele-medicine capabilities to allow rural emergency rooms and EMS real-time connections to neonatal specialists who can help bedside teams with acute care of newborns.	\$192
Cheshire and Hillsborough Counties, NH	Keene State College	Expanding Employment, Training, and Family Access to High Quality Birth-to-Five Childcare	Keene State College, in partnership with the Monadnock United Way, is seeking funds to support initiatives to increase both the number and level of training for childcare workers, including training and professional	\$1,000

			development for current workers. The aim of these initiatives is for higher retention of employees in the field, which will also help to expand childcare availability in the Monadnock Region.	
Hillsborough County, NH	Catholic Medical Center & Saint Anselm College	Construction and Operation of a Medical Simulation and Innovation Center	Catholic Medical Center (CMC) and Saint Anselm College would use Congressionally Directed Spending funds to build a 13,000sq ft. state-of-the-art healthcare simulation facility in New Hampshire. CMC and Saint Anselm College would renovate and build this center on Manchester's West Side. This facility would be used for healthcare staff, nursing and healthcare students and other stakeholders for on the job training, representations of real life health care events and testing.	\$2,000
Hillsborough County, NH	Stepping Stones	Stepping Stones Homeless Youth Drop-in Center	These funds would help Stepping Stones implement more robust programming for the homeless youth drop-in center it established last year in Nashua. They provide basic needs such as food, showers, clothes and toiletries, but also work with youth to obtain necessary documentation like a driver's license or a copy of a birth certificate.	\$100
Manchester, NH	Southern New Hampshire University	Southern New Hampshire University Basic Needs Center	Funds from this request would be used by Southern New Hampshire University to establish a Basic Needs Center on campus to help	\$250

			students, faculty and staff experiencing food insecurity.	
Manchester, NH	Catholic Medical Center	Improvement to CMC Emergency Department Behavioral Health Annex	This request aims to improve the space where Catholic Medical Center (CMC) is currently housing involuntarily admitted behavioral health patients “boarding” in the emergency department while they wait for a behavioral health bed to open.	\$500
Manchester, NH	Dismas Home of New Hampshire	Substance Use Treatment Program	Dismas Home has requested funds to help with an outreach campaign to recruit participants in their program. Dismas Home offers a four-phase substance use disorder treatment program for previously incarcerated women. Due to COVID restrictions at jails and prisons, it has been very hard for Dismas Home to recruit new residents and they have been unable to transition existing residents out of the home due to delays in the court system. These funds would help to keep Dismas Home programming afloat with more outreach efforts.	\$25
Manchester, NH	Dartmouth-Hitchcock Health	Children’s Hospital at Dartmouth-Hitchcock Manchester Expansion Project	Dartmouth-Hitchcock is seeking funds to expand the Dartmouth-Hitchcock Outpatient Clinic in Manchester in order to house an expansion of the Children’s Hospital at	\$1,000

			Dartmouth-Hitchcock (CHaD).	
Manchester and Hooksett, NH	Southern New Hampshire University	Content Based Instruction for English Language Learners at SNHU Center for New Americans	Southern New Hampshire University is requesting funds to undertake a community needs analysis regarding the greatest needs for English language instruction for immigrants and refugees in Manchester. This analysis will inform the university and help them to customize the Intensive English Program at the Center for New Americans. They would also use funds to hire support staff and upgrade the Center's technology and supplies.	\$233
Manchester and Hooksett, NH	Southern New Hampshire University	Project AIM (Achieving Independence & Mobility)	These funds would support a feasibility study and community needs assessment on advancing postsecondary opportunities for incarcerated individuals in the state, specifically by looking at the efficacy of a hybrid college degree program for those incarcerated. Funds for Southern New Hampshire University would be used to support staff working on the study, program expenses and faculty capacity support.	\$170

Manchester, NH	Safari Youth Club	Let's Fight COVID-19 Together Refugee Program	Safari Youth Club has requested funds to expand a wrap-around services program to 45 families in the Manchester area to help facilitate youth by helping parents better understand the school system, combat COVID vaccine hesitancy and connect them to eligible services. They would also like to use funds to run a summer sports camp where they would also teach health education including COVID-19.	\$150
Nashua, NH	Nashua Community College	Aviation Technology Training Center	This request would assist the Nashua Community College in purchasing updated training aids and equipment for a new Aviation Technology Training Center at the Manchester Boston Regional Airport. Nashua's Aviation Technology Program is the only FAA-certified program in the state and this new space will give the college room to expand the program.	\$782
New London, NH	Colby-Sawyer College	Colby-Sawyer College School of Nursing & Health Sciences	Colby-Sawyer College has requested funds to construct a new, state-of-the-art building for its School of Nursing & Health Sciences Program. This program has expanded over the last few years as Colby-Sawyer has worked with Dartmouth-Hitchcock on a five-year project to expand their partnership to address critical workforce needs. This project will fill a critical need for nursing	\$1,500

			education to ready the next generation of nurses.	
Northfield and Merrimack County, NH	HealthFirst Family Health Center	HealthFirst Family Health Center - New Franklin Facility	This project would help HealthFirst Family Health Center, a FQHC serving NH's Lakes Region, to renovate approximately 5,000 sq. ft. at its facility in Franklin. Renovations would include a build out of two additional provider pods allowing space to expand access to primary care and behavioral health. It will also enable the center to bring Medication Assisted Treatment (MAT) services on-site.	\$1,000
Rockingham County, NH	One Sky Community Services	NH Developmental Disabilities Housing Infrastructure Project	One Sky Community Services, one of NH's 10 Area Agencies for those with developmental disabilities and traumatic brain injuries, would use funds to construct a residential facility with 24/7 care for 6 individuals with developmental disabilities in Northwood, NH.	\$1,000
Statewide, NH	Campus Compact for New Hampshire	Some College, No Degree: Addressing the Completion Gap in New Hampshire	This project aims to improve completion rates for NH residents who have left college without a degree. Campus Compact for New Hampshire would use funding to hire a coordinator who will work on several strategies including increasing access to resources, promoting reverse transfer opportunities, addressing	\$325

			racial and ethnic disparities that can lead to drop-out and establishing relationships with local employers to create work pathways for non-completers. Funds would also be used for pilot projects at NH colleges and universities to support bringing non-completers back to campus.	
Statewide, NH	Dartmouth-Hitchcock Health	Center for Advancing Rural Health Equity	Dartmouth-Hitchcock is requesting funds in order to establish the Center for Advancing Rural Health to address persistent health disparities in rural communities. This center would work to foster improvements in rural health through research, healthcare design, education, workforce development & community action.	\$448
Strafford County, NH	Wentworth-Douglass Hospital	Wentworth-Douglass Care Van	Wentworth-Douglass Hospital would use these funds to expand its Care Van Program, which assists in helping bring patients to medical appointments when they have no other means of transportation.	\$500
Sullivan County, NH	Sullivan County	Sullivan County Health Care Nursing Home Renovation	This request aims to help Sullivan County as it undertakes a renovation of the Sullivan County Nursing Home in Unity. Sullivan County aims to expand the square footage of the campus by 50%, modernize the campus and update plumbing and heating infrastructure.	\$2,000

Sullivan and Grafton Counties, NH	TLC Family Resource Center	Improving Outcomes for Children Impacted by Substance Use	TLC Family Resource Center aims to expand their current services around Adverse Childhood Experiences to better integrate family strengthening and peer recovery strategies that address the impact of Substance Use Disorder on child outcomes.	\$350
Whitefield, NH	Ammonoosuc Community Health Services	Whitefield Behavioral Health/Substance Use Disorder, Nutrition and Patient Navigational Community Access	Ammonoosuc Community Health Services (ACHS) would use funds to renovate the 2nd floor of the organization's space in Whitefield, NH which will allow for increased access to Substance Use Disorder, behavioral health, nutrition and patient navigational services.	\$500
Lebanon, NH	Families Flourish Northeast	Residential SUD Treatment Services for Pregnant and Parenting Women	This project would provide Families Flourish Northeast with funds to build a state-of-the-art residential treatment facility and clinical support program for women where they can also bring their children. Funds would be used to renovate and reconfigure a 3-story living space in Lebanon to house 14 women and their children ages 0-12.	\$500
Manchester, NH	YWCA NH	Adverse Childhood Experiences Response Team (ACERT)	This project would provide funds to YWCA NH to enhance trauma-informed training for law enforcement and first responders to ensure they can respond to children who have experienced trauma. Funds would also be used to strengthen	\$750

ACERT infrastructure, provide more ongoing support for traumatized families and access to a database for closed-loop referrals to services to increase the number of children experiencing trauma who received evidence-based mental health services.

Transportation, Housing and Urban Development Requests: Total \$19,740,000

Project Location	Recipient Name	Project Name	Project Purpose	Amount Received (in thousands)
Concord and Penacook, NH	CATCH Neighborhood Housing	Rosemary's Way Penacook Affordable Housing	CATCH is requesting a \$250,000 federal appropriation to cover the anticipated unbudgeted COVID-19 pandemic-related increases in material costs. This funding will ensure that the Rosemary's Way residential development in Penacook is completed on time and as planned, creating 42 new low-to moderate-income housing units in Concord.	\$250
Grafton and Coos Counties, NH	Affordable Housing, Education and Development, Inc.	Littleton Regional Community Housing and Economic Empowerment Initiative	This funding would support AHEAD, a nonprofit community development corporation based in Littleton, New Hampshire, in a project to create up to 150 newly constructed, affordable housing units on a 77-acre, in-town site with 29 acres designated for conservation and recreational uses and up to 17 acres designated for use as the site of a new	\$970

			<p>elementary school. Funding would be for the acquisition of this site and for infrastructure development including construction of roadways, water and sewer systems and underground electrical systems.</p>	
Hillsborough and Rockingham Counties, NH	Nashua Soup Kitchen & Shelter	Spring Street Forward	<p>This funding would support the Nashua Soup Kitchen and Shelter (NSKS) in renovating the old Sacred Heart elementary school at 35 Spring St. to serve as an emergency shelter and permanent housing for individuals experiencing homelessness. The shelter will provide space for families with children, single adult men, and single adult women. In addition, 11 units of permanent housing for single adults will be provided. Emergency childcare for families experiencing homelessness, healthcare services to be provided by the local Community Health Center, and job training will all be provided on site.</p>	\$900
Hillsborough and Rockingham Counties, NH	Manchester-Boston Regional Airport	Manchester-Boston Regional Airport (MHT) West Cargo Apron Development	<p>The Manchester-Boston Regional Airport (MHT) has undertaken a public-private partnership to develop up to a 100,000 square-foot air cargo facility, with a private developer funding the building and related work, and MHT funding the aircraft apron, taxiway connectors, utility relocation, and an access road.</p>	\$9,350

Hillsborough County, NH	Waypoint	Shelter and Housing for Youth and Young Adults Who are Homeless	This proposed project would fund Waypoint's work in Manchester to open the first ever emergency shelter and dedicated permanent housing units for youth and young adults in NH.	\$771
Manchester, NH	Manchester Housing and Redevelopment Authority	Kelley Falls Affordable Housing Redevelopment	This funding would support the Manchester Housing and Redevelopment Authority (MHRA) in conducting pre-development activities that will enable the agency to meet its due diligence, complete engineering and site work design, architectural design and bid documents to substantially rehabilitate Kelley Falls Apartments, a post-WWII public housing development in Manchester comprised of 132 units.	\$1,000
Nashua, NH	City of Nashua	Walnut Street Oval Improvements	This funding would support improvements to Walnut Street in Nashua. The Walnut Street "Oval" is the result of 1950s urban renewal, and has led to a lack of circulation, prohibition of vehicular movement, and an unsafe situation for pedestrians. This project would tighten the impacted intersections, reintroduce sidewalks, realign the roadways to connect them and allow for traffic flow, create new intersections, and install signaling. Combined, these improvements will reintroduce a street grid that allows traffic to move efficiently and vastly improve pedestrian safety.	\$1,000

Newport, NH	Town of Newport	Newport Airport (2B3) Runway Resurfacing	This project will enable the Parlin Field Airport in Newport, New Hampshire to completely resurface its 3,400 ft. runway to ensure continued safe, sustainable usage by local residents, tourists and businesses.	\$650
Portsmouth, NH	NH Community Loan Fund	Affordable Housing in Portsmouth	This CDS request would help the NH Community Loan Fund provide affordable housing for low- and very low-income families in Portsmouth. Funding would go toward development of an existing manufactured housing cooperative known as the Woodbury Cooperative. Development activities would include removing abandoned, dilapidated commercial buildings, improving water and sewer infrastructure, reorienting two manufactured homes to improve spacing for fire safety, the addition of four new affordable homes and the widening of the shared driveway to accommodate fire trucks and ambulances.	\$343
Statewide, NH	Strafford Regional Planning Commission (SRPC)	New Hampshire Regional Housing Needs and Comprehensive Planning	This request would fund each of the nine New Hampshire Regional Planning Commissions' efforts to prepare a new regional housing needs assessment (RHNA) and update their comprehensive plans which were last updated in 2015. This statewide update of RHNAs by each region will provide needed information such as an analysis of housing	\$950

			supply and demand, and fair share housing calculations that communities and agencies require for their own planning efforts.	
Statewide, NH	New Hampshire Judicial Branch	Landlord-Tenant Mediation Program Expansion	The funds obtained through this request would be used to expand the landlord-tenant mediation pilot program statewide so that all New Hampshire residents, regardless of location, can use mediation. Currently, only landlords and tenants who have cases in either Concord or Claremont Circuit Courts are able to mediate their cases. Additional funding will be used to expand the capacity of the program so that it can be offered in all 31 district divisions in New Hampshire. Mediation promotes housing stability and expanding this program would provide tenants and landlords across NH access to this useful and stabilizing program.	\$556
Strafford and Rockingham Counties, NH	Seacoast Family Promise	Increased Housing for Low to Moderate Income Families with Children	This CDS request would support the development of affordable housing facilities in Strafford and Rockingham counties to provide permanent supportive housing for families with children.	\$1,000
Strafford County, NH	Easter Seals of New Hampshire, Inc.	Champlin House Improvements	Easterseals will use the funds towards building modernization, a modest expansion and accessibility improvements to the Champlin House senior community center. Funds will support engineering,	\$1,000

			architectural services and construction of physical improvements. Expected outcomes would be interior modifications and expansion to create larger, more spacious program areas, the addition of an elevator, upgraded/new bathroom facilities, and improvement of meal preparation capacity.	
Strafford County, NH	Community Action Partnership of Strafford County	Community Action Partnership of Strafford County Innovation Center	This funding would support the Community Action Partnership of Strafford County (CAPSC) to consolidate its separate anti-poverty programs within one facility in Dover. CAPSC partnered with the Housing Partnership to create 42 workforce housing units, and CAPSC occupies 17,000 square feet of commercial space on the ground floor with Head Start, homeless and housing programs, fuel assistance and administrative services. Project funding would eliminate CAPSC's mortgage on this property and provide additional reductions in expenditures on utilities, phone service, and technology. The dollars saved would be reinvested back into its programs and would contribute to the long-term sustainability of the organization.	\$1,000

Energy and Water Requests: Total \$2,671,000

Project Location	Recipient Name	Project Name	Project Purpose	Amount Received (<i>in thousands</i>)
Bedford, NH	Town of Bedford	Utility Upgrades for the Bedford Landfill Solar Project	This CDS request would enable the complete design, engineering, permitting, procurement, construction and interconnection of a 1.04 MW net metered solar array, consisting of 2,336 Tier 1 solar modules, 15 inverters, a ballasted racking system, and associated electrical components. The Town of Bedford would take responsibility for all future Operations & Maintenance expenses to ensure peak long-term generation over the 25-year warranty period and 40-year expected commercial lifespan of the solar array.	\$500
Derry, NH	Town of Derry	Derry Landfill Solar Project	This CDS request would help fund a 2.2 megawatt (MW) landfill solar project that would provide enough electricity to cover 100% of the Town's municipal electrical usage, saving over \$405,000/year in electricity costs and nearly \$8,000,000 over the 25-year life of the project, helping to reduce the tax burden for the Town's residents.	\$500
Durham, NH	University of New Hampshire	Oyster River Resiliency Project	This funding would support the Oyster River Resiliency Project (ORRP), a proposed community-centric microgrid connecting the University of New Hampshire (UNH)	\$1,150

			<p>and town of Durham. The ORRP builds on discussion and planning between UNH, Eversource Energy and the Durham Energy Committee to pursue grid modernization initiatives. Phase 1 of the ORRP (completed in June 2020) included a feasibility study on the microgrid portion of the ORRP that included a base-case microgrid design and benefit-cost analysis. This CDS request would fund ORRP's Phase 2, which would advance the project through coordinated investments in the UNH infrastructure to enhance power generation and peak load capacity, provide thermal and power storage, facilitate public and institutional EV fleet growth, and complete upgrades to critical buildings and controls.</p>	
Hanover, NH	Town of Hanover	Hanover LED Streetlight Conversion	<p>The project would replace existing inefficient High Pressure Sodium streetlights with efficient controllable LED street lighting. Current lighting is controlled exclusively by photocells with no ability to adjust lighting levels or electrical consumption.</p>	\$271
Newport, NH	Town of Newport	Newport Town Office Energy Improvements	<p>This project would fund the installation of a new, energy-efficient and heating, cooling, and air ventilation (HVAC) system for the 115-year-old Newport Town Building as well as replace existing</p>	\$250

	windows with a more energy-efficient alternative.	
--	---	--

Agriculture Requests: Total \$2,725,000

Project Location	Recipient Name	Project Name	Project Purpose	Amount Received (in thousands)
Carroll County, NH	Mt. Washington Valley Economic Council	Mt. Washington Valley Technology Village Business Resource Center Improvements	This project supports infrastructure upgrades at the Mt. Washington Valley Technology Village Business Resource Center, including the installation of water, sewer, road and broadband networks.	\$200
Claremont, NH	City of Claremont	Claremont Opera House Fire Sprinkler System	Funding from this request will support the installation of a fire sprinkler system in the Claremont Opera House.	\$100
Grafton County, NH	Mid-State Community Development Corporation	Children's Learning Center	This project will support the renovation of an existing 8,400 square foot building in Plymouth, NH, to allow the Mid-State Community Development Corporation to better meet the needs of children and families in Grafton County.	\$200
Grafton County, NH	Town of Campton	Campton Emergency Communications	This project supports the purchase and installation of 2 VHF P25 compliant interoperability Radio repeaters and the additional equipment that will be needed to	\$175

			operate this new system.	
Northumberland, NH	Town of Northumberland	Northumberland Public Safety Building	This request would help to fund the construction of a new public safety building in Northumberland, NH, which would house all services in one building and provide for the safe operation of all of the town's emergency services.	\$200
Swanzey, NH	Town of Swanzey	Swanzey Center Fire Station	This request would help to offset costs associated with the construction of a new fire station in Swanzey, NH, which will improve the town's ability to meet the community's needs and improve the fire department's ability to recruit and retain call/volunteer members.	\$200
Sandwich, NH	Town of Sandwich	Sandwich Broadband Expansion	This project will provide the Town of Sandwich funds to form a public-private partnership to construct a fiber optic broadband network, which will service the entire town and provide access for every household and business to fast reliable internet service at an affordable price.	\$1,650
