Washington, DC 20510

The Honorable Richard Shelby
Vice Chairman
Committee on Appropriations
United States Senate
S-128, The Capitol
Washington, DC 20510

The Honorable Tammy Baldwin
Chair
Senate Appropriations Subcommittee
on Agriculture, Rural Development,
Food and Drug Administration and
Related Agencies
Washington, DC 20510

The Honorable John Hoeven
Ranking Member
Senate Appropriations Subcommittee
on Agriculture, Rural Development,
Food and Drug Administration and
Related Agencies
Washington, DC 20510

Dear Chairman Leahy, Vice Chairman Shelby, Chair Baldwin and Ranking Member Hoeven:

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2022 Agriculture, Rural Development, Food and Drug Administration and Related Agencies Appropriations Bill, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate.

Sincerely,

Jeanne Shaheen
United States Senator

Congressionally Directed Spending Requests Submitted by Senator Jeanne Shaheen to the FY 2022 Agriculture, Rural Development, Food and Drug Administration and Related Agencies Appropriations Bill

Project Location	Recipient Name	Project Purpose	Amount Requested (in thousands)
Bristol, NH	Town of Bristol	Funds from this request would support the Town of Bristol’s efforts to deliver reliable broadband services to residents and local businesses who need it for telework, telemedicine, distance learning and research.	\$994
Carroll County, NH	Mt. Washington Valley Economic Council	This project supports infrastructure upgrades at the Mt. Washington Valley Technology Village Business Resource Center, including the installation of water, sewer, road and broadband networks.	\$200
Claremont, NH	City of Claremont	Funding from this request will support the installation of a fire sprinkler system in the Claremont Opera House.	\$100
Durham, NH	University of New Hampshire	This request supports a statewide initiative led by the University of New Hampshire and the New Hampshire Veterinary Diagnostics Laboratory to expand the molecular diagnostics capacity of the New England region.	\$100
Grafton County, NH	Mid-State Community Development Corporation	This project will support the renovation of an existing 8,400 square foot building in Plymouth, NH, to allow the Mid-State Community Development Corporation to better meet the needs of children and families in Grafton County.	\$200

Grafton County, NH	Society for the Protection of New Hampshire Forests	This project supports infrastructure investments at The Rocks in Grafton County, replacing a community economic and educational resource lost to fire in 2019 by renovating an existing historic barn as a net-zero forest exploration center.	\$100
Grafton County, NH	Town of Campton	This project supports the purchase and installation of 2 VHF P25 compliant interoperability Radio repeaters and the additional equipment that will be needed to operate this new system.	\$175
Grafton and Merrimack Counties, NH	Town of Bristol	Funding from this request will offset costs associated with the construction of a new 22,000 square foot public safety building in Bristol, NH.	\$75
Littleton, NH	Town of Littleton	Funding from this request will be used to offset the costs associated with the implementation of Phase II of the Littleton Main Street project, which would address a number of challenges in the area to include: re-alignment a dangerous intersection in downtown, installation of sidewalks and pedestrian walkways and additional parking.	\$100
Merrimack County, NH	Town of Warner	This project will help to create a mile of multi-use trail in Merrimack County as well as provide improvements to the natural habitat along the trail.	\$200
Newport, NH	Town of Newport	Funds from this request will help to offset costs associated with building a new community center in Newport, NH.	\$200

Northumberland, NH	Town of Northumberland	This request would help to fund the construction of a new public safety building in Northumberland, NH, which would house all services in one building and provide for the safe operation of all of the town's emergency services.	\$200
Sandwich, NH	Town of Sandwich	This request supports a public-private partnership to construct a fiber optic broadband network which will service the Town of Sandwich and provide reliable internet access for households and local businesses in the area.	\$1,000
Strafford County, NH	Town of Durham	This project supports efforts to expand and strengthen the health and safety functions of the Town of Durham's fire station.	\$75
Swanzey, NH	Town of Swanzey	This request would help to offset costs associated with the construction of a new fire station in Swanzey, NH, which will improve the town's ability to meet the community's needs and improve the fire department's ability to recruit and retain call/volunteer members.	\$200

United States Senate
S-128, The Capitol
Washington, DC 20510

The Honorable Jerry Moran
Ranking Member
Appropriations Subcommittee on Commerce,
Justice, Science, and Related Agencies
Washington, DC 20510

Dear Chairman Leahy, Vice Chairman Shelby and Ranking Member Moran:

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2022 Commerce, Justice, Science and Related Agencies Appropriations Bill, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate.

Sincerely,

Jeanne Shaheen
United States Senator

Congressionally Directed Spending Requests Submitted by Senator Jeanne Shaheen to the FY 2022 Commerce, Justice and Science Appropriations Bill

Project Location	Recipient Name	Project Purpose	Amount Requested (in thousands)
Cheshire County, NH	City of Keene Police Department	This project would provide funding for 50 Body Worn Camera (BWC) units and equip 16 cruisers with integrated In-Car Video Systems, as well as associated Wireless Access Points and necessary training and start-up equipment. It would also provide the Keene Police Department (PD) with unlimited cloud storage and the software necessary to run the program and conduct redaction as necessary for Right to Know requests based on NH Statute. Keene PD is requesting this funding to meet the NH Law Enforcement Accountability, Community, and Transparency Commission's recommendation to implement BWC programs in all New Hampshire law enforcement agencies as part of New Hampshire law enforcement reforms.	\$415
Cheshire County, NH	Cheshire County Sherriff's Office	This project would replace Cheshire County Sherriff's Office Dispatch Center existing public safety and emergency communications network with a wide area digital network radio system. The project will also support engineering studies that will provide recommendations for the strategic placement and best use of the remote radio and relay sites and provide solutions that best address how to fill in radio communications gaps in the highly rural areas.	\$750
Concord, NH	McAuliffe-Shepard Discovery Center	This project would replace the Discovery Center's 92 planetarium seats (installed in 1990) with new adjustable seating that would provide a better view of presentations on the Center's overhead domed screen. The funds would also allow for the Center to replace their old projectors with a newer, more energy-efficient model.	\$348
Durham, NH	The University of New Hampshire	This proposal builds on the University of New Hampshire's (UNH) efforts to construct a unique, ultra-sensitive magnetometer array to better understand how Earth's geomagnetic environment responds to space weather generated by the sun. This work, and these instruments, help build interest in STEM and space research at the undergraduate level through Space Weather UnderGround (SWUG), and graduate level through federal projects where students	\$501

		in the SWUG can get hands-on experience with flight instrumentation.	
Exeter, NH	Town of Exeter Police Department	This project would provide funding for the Exeter Police Department (PD) to purchase body-worn camera (BWC) units and equip cruisers with integrated In-Car Video Systems, as well as associated Wireless Access Points and necessary training and start-up equipment. Exeter PD is requesting this funding to meet the New Hampshire Law Enforcement Accountability, Community, and Transparency Commission's recommendation to implement BWC programs in all New Hampshire law enforcement agencies as part of New Hampshire law enforcement reforms.	\$232
Greenland, NH	Greenland Police Department	This project would allow the Greenland Police Department (PD) to purchase 9 body-worn camera (BWC) units and access the cloud storage and the software necessary to run the program and conduct redaction as necessary for Right to Know requests based on New Hampshire Statute. Greenland PD is requesting this funding to meet the New Hampshire Law Enforcement Accountability, Community, and Transparency Commission's recommendation to implement BWC programs in all New Hampshire law enforcement agencies as part of New Hampshire law enforcement reforms.	\$70
Greenland, NH	Greenland Police Department	This project would fund the installation of an electronic (via cards or fobs) key security system for the Greenland Police Station, which would provide documentation of who enters/leaves, access of the property/evidence room and building security. The funds would cover the cost of the physical security system (estimated at five (5) electronic entrances and 15 cards/fobs to be issued to authorized employees), the computer and/or software needed to run/control the system.	\$15
Hillsborough County, NH	Merrimack Police Department	This project would fund the Merrimack Police Department and Fire Department's efforts to upgrade to their existing radio system to an 800 megahertz (MHz) digital trunked radio system in order to alleviate current coverage issues. Both departments have had radio coverage issues while trying to transmit inside large structures and other geographically compromised areas.	\$1,472

Nashua, NH	Nashua Police Department	This project would allow the Nashua Police Department (PD) to provide interpretation and translation services to community members. Currently, this service is not provided due to a lack of local resources. Nashua PD would contract with an outside vendor who would provide interpretation and translation 24/7 via phone as well as video conference in both the field and a formal setting.	\$95
Rochester, NH	Municipal Alliance for Adaptive Management	This federal funding would help the Municipal Alliance for Adaptive Management invest in and expand both eel grass and oyster restoration in Great Bay. The Municipal Alliance for Adaptive Management would work with the Piscataqua River Estuaries Program to monitor the eel grass growth and would partner with other organizations on oyster restoration monitoring. Both eel grass and oyster beds can naturally help to treat and improve the water quality in Great Bay.	\$1,000
Rockingham and Strafford Counties, NH	The University of New Hampshire	This project would expand and renovate the University of New Hampshire Jackson Estuarine Lab (JEL) by 4,000 sq ft. to: 1) launch a state-of-the-art water quality lab that can leverage UNH's investment in genomic sequencing, better engage federal, state, and local partners, and provide real time monitoring of the Great Bay Estuarine System; 2) provide the local support through a new high bay space for marine operations (manned, autonomous), aquaculture systems for sustainable seafood, expanded diving, and field operations; and 3) create convening space to support Federal, state, and community engagement and coordination.	\$3,813
Rockingham and Strafford Counties, NH	NH Fish and Game Department	This project would fund New Hampshire Fish and Game outreach efforts to inform the New Hampshire fishing industry of NOAA's proposed rule related to Agency-required efforts to reduce the risk of injury and mortality to the North Atlantic Right Whales. The funds provided by the request would assist in the development of outreach materials and meetings with the industry to outline the current issues and obtain input on remedies that will help the lobstermen comply with the proposed rule modifications.	\$50
Statewide, NH	NH Department of Justice	This CDS project would allow the New Hampshire Department of Justice to solicit applications from New Hampshire Law Enforcement for one time capital expenses, security upgrades and community police initiatives. This will include funding for body and dashboard cameras, radio system upgrades, bulletproof vests, stipends for training of police officers and community policing initiatives. This will	\$500

		allow law enforcement agencies to make important upgrades that may not have been available because of limited local budgets.	
Statewide, NH	NH Department of Safety – Division of State Police	This CDS proposal would provide the New Hampshire State Police with funding needed to obtain hardware, software and additional training to appropriately respond to the rise in digital crime. The project will allow the NH State Police Department of Special Investigation to provide improved, free services to local Law enforcement agencies as well as expanded training for forensics lab staff.	\$1,224
Statewide, NH	Plymouth State University	This project would fund upgrades to the Plymouth State University’s (PSU) Draper & Maynard Outfitting the Electromechanical Technology and Robotics (EMTR) Lab with new technology and equipment. EMTR is a new PSU four-year program that aims to prepare students for state-of-the-industry technology careers in robotics, automation and IoT (Internet of Things) technology platforms.	\$1,000
Strafford County, NH	Durham Department of Public Safety	This project would replace the Town of Durham’s existing public safety and emergency services land mobile radio (LMR) communications equipment infrastructure which is obsolete and unserviceable, with new modern technology and equipment. The Town of Durham and Strafford County government are collaborating with Motorola Solutions to build an updated communications system. The project is shovel-ready (pending funding) and can be constructed over a twelve to eighteen month period.	\$900
Strafford County, NH	Strafford County	This project would allow Strafford County to build out an engineered two-way radio system to cover the current needs of all County Law Enforcement, Fire, EMS and Emergency Management Entities. This system will provide portable radio coverage at an industry standard of 95% coverage area and 95% reliability county-wide to increase responder safety and coordination by having reliable and improved coverage.	\$750

United States Senator

Congressionally Directed Spending Requests Submitted by Senator Jeanne Shaheen to the FY 2022 Energy and Water Development Appropriations Bill

Project Location	Recipient Name	Project Purpose	Amount Requested (in thousands)
Bedford, NH	Town of Bedford	This project would offset the costs of the 4,500 lineal feet of utility upgrades needed to advance the installation of a 1.04 MW net metered solar array.	\$500
Derry, NH	Town of Derry	Funds provided by this project would be leveraged support the installation of a 2.2 megawatt landfill solar panel system that would generate enough electricity to cover 100% of the town's municipal electrical usage.	\$500
Dover, NH	U.S. Army Corps of Engineers	This congressionally directed spending request supports efforts by the City of Dover to extend a public river walkway along a city-owned, underutilized property to connect the parcel with a trail system on conservation land located downstream from the Cochecho River.	\$750
Durham, NH	University of New Hampshire	This funding would support the Oyster River Resiliency Project, a proposed community-centric microgrid connecting the University of New Hampshire and Town of Durham.	\$1,150
Hanover, NH	Town of Hanover	The project would replace existing inefficient High Pressure Sodium streetlights with efficient, controllable LED street lighting.	\$271
Hanover, NH	Town of Hanover	This project would support statewide efforts to establish a community choice aggregation program that will allow local governments in Grafton and Cheshire Counties to procure power on behalf of their residents, businesses and municipal accounts.	\$750
Newport, NH	Town of Newport	This project would fund the installation of a new, energy-efficient heating, cooling and air ventilation (HVAC) system for the 115-year-old Newport Town Building and replace existing windows in the building with a more energy-efficient alternative.	\$250

Congressionally Directed Spending Requests Submitted by Senator Jeanne Shaheen to the FY 2022 Financial Services and General Government Appropriations Bill

Project Location	Recipient Name	Project Purpose	Amount Requested (in thousands)
Candia, NH	Town of Candia	This project would help to fund the design, planning and construction of a public safety complex and a facility for the Town of Candia that will be used by their Highway Department. The facility will also be used as a resource for Candia's fire department/rescue service and police department. Employees and contractors of the Highway Department will be able to service and repair equipment, and police and fire personnel will have access to decontamination showers.	\$2,174
Rochester, NH	New Hampshire Judicial Branch	This project would help to offset the costs of the design and engineering of a new Rochester Circuit Court courthouse, which is currently located in the town's old post office building. The project would allow the City of Rochester to house all court proceedings in one building, use the old post office building to meet the city's needs and provide an opportunity for further redevelopment of downtown Rochester. The City of Rochester has a parcel of land available for the project. The estimated cost for design and engineering is \$1,161,000, and the estimated cost of site work and construction is \$14,340,000.	\$1,161

Congressionally Directed Spending Requests Submitted by Senator Jeanne Shaheen to the FY 2022 Homeland Security Appropriations Bill

Project Location	Recipient Name	Project Purpose	Amount Requested (in thousands)
Durham, NH	Town of Durham Department of Public Works	This congressionally directed spending request would assist the Town of Durham in purchasing generators for two town water pump stations, the Durham Police Station and town public works facility. These backup generator at the water pumping station would ensure residents in Durham as well as the University of New Hampshire continue to have water in the event of a prolonged power outage.	\$543
Hampstead, NH	Hampstead Fire Department	This congressionally directed spending request would support efforts by the Town of Hampstead to renovate an existing fire station into a fully interoperable Emergency Operating Center (EOC) that will improve the town's ability to coordinate information and emergency resources.	\$200
Manchester, NH	City of Manchester Fire Department	This congressionally directed spending request would assist in providing the City of Manchester with an Emergency Operations Center (EOC) to facilitate the region's emergency and disaster response efforts.	\$5,000

United States Senator

Congressionally Directed Spending Requests Submitted by Senator Jeanne Shaheen to the FY 2022 Interior and Environment Appropriations Bill

Project Location	Recipient Name	Project Purpose	Amount Requested (in thousands)
Bow, NH	Town of Bow	To spur economic development, the Town established the Bow Business Corridor Tax Increment Finance District consisting of 422 acres. The highest priority project is to extend the Town's existing municipal water system to service the properties within the District. A large portion of the land has been re-zoned for commercial, industrial or mixed uses to take advantage of its prime location and I-89/I-93 highway access. The lack of public water impedes any future development. MtBE was detected in Bow Junction and Bow Mills and the contamination levels do not meet Drinking Water Quality standards set by the NH Department of Environmental Services. The project includes the installation of approximately 15,500 linear feet of new water main north along NH Route 3A to service the District, a water storage tank, and water booster. This project is included on the State's Drinking Water SRF Intended Use Plan.	\$801
Canaan, NH	Town and Village of Canaan	Replacing and enhancing drinking water infrastructure, including leaded water line replacement and river crossing protection.	\$1,470
Concord, NH	NH Preservation Alliance	This project rescues, restores and revives the vacant Gasholder building in Concord, listed on the National Register of Historic Places (2018) and documented by the Historic American Engineering Record (1984). This distinctive 88' diameter brick structure with a wooden cupola is a visible and significant landmark in the capital city. This rare survivor is one of 14	\$500

		known gasholders in the U.S. and is the only one to have its inner workings intact. Major roof damage nearly a decade ago caused water infiltration that has made the vacant and unused landmark extremely vulnerable.	
Conway, NH	Conway Village Fire District	This project would address sources of inflow and infiltration into aging sewer lines to reduce flows within the system and ensure sewage is not leaking into groundwater.	\$1,000
Dover, NH	City of Dover	Replacement of existing 14-inch or 16-inch cast iron water mains installed in 1880 on Central Avenue that are tuberculated and undersized for current and future needs.	\$4,800
Durham, NH	University of New Hampshire	Funds would be used to provide combined monitoring of SARS-CoV-2 biomarkers and per-and polyfluoroalkyl substances (PFAS) in campus and regional community wastewater systems, as well as develop methods to extend wastewater surveillance to include a wide range of other emerging contaminants (e.g., pharmaceuticals, antibiotics, personal care products, anticonvulsants, insecticides, etc.).	\$1,335
Exeter, NH	Town of Exeter	Upgrade of the Webster Ave sewer pump station and appurtenances will provide for greater commercial and residential development in the sewershed, including the expansion of Exeter Hospital.	\$1,040
Gorham, NH	Appalachian Mountain Club	Franconia Ridge Trail is one of the most popular of all the White Mountain National Forest trails and is also part of the famed Appalachian Trail (AT). The trail work would concentrate on installing structures to better define the trail to keep hikers from veering off the path and trampling fragile alpine vegetation, of which the East Coast has so little. Trail work would also focus on installing rock steps and water bars to protect the trail from further erosion.	\$1,125

Greenville, NH	Town of Greenville	Design and construction of a chemical feed facility to achieve compliance with a NPDES permit in furtherance of State and Federal environmental goals, while limiting further economic hardship on a community which is already facing significant financial limitations.	\$750
Keene, NH	City of Keene	Funding would be used to do an engineering assessment of the sewer force main to determine condition, identify weak points/areas at high risk of failure and the work to repair these areas.	\$325
Lebanon, NH	City of Lebanon	Replacement of a major high pressure, 1958 cast-iron 12" water main that services many businesses and connects the water supply from Lebanon to West Lebanon. The purpose is to provide both domestic and fire protection water to a very essential business district in the most economical way to address the water asset deficiencies.	\$2,200
Lyme, Canaan, Hanover, and Dorchester, NH	U.S. Fish and Wildlife Service, Silvio O. Conte NFWR	Funding for this project would support federal acquisition of a conservation easement by USFWS of more than 4,092 acres of priority lands in New Hampshire from a willing seller (Bear Hill Conservancy) as additions to the Silvio O. Conte National Fish and Wildlife Refuge (Conte Refuge), which spans the four-state Connecticut River watershed.	\$5,000
Milan, NH	Nansen Ski Club	This federal appropriation will be used to help in the preservation of the Big Nansen Ski Jump, a historic site registered on the National Register of Historic Places, in Milan, NH. The Big Nansen Ski Jump was once the largest ski jump in the world and used for several Olympic Trials, including the 1938 trials, and other national championships. This appropriation will be used to address structural issues associated with the site's aging infrastructure.	\$1,500

Nashua, NH	City of Nashua	Overhaul of deteriorating fish ladder at the Jackson Mills Hydroelectric project to support the watershed and fish habitat.	\$1,000
Newport, NH	Town of Newport	Engineering for preliminary and final design, project bidding and selection, and construction inspection of the wastewater treatment plant upgrade.	\$1,000
Rochester, NH	City of Rochester	The proposed project will provide upgrades to the City's wastewater treatment plant septic receiving area which are necessary to comply with EPA's Great Bay Total Nitrogen General Permit effective February 2021. Funding for this project will be allocated for the engineering design and the construction of a modern and user-friendly system to collect and treat waste from septic systems in Rochester, NH. The project will protect public health and reduce in non-point source nitrogen loading to the Great Bay watershed by providing a reliable means for septage disposal. This project is included in the State's Clean Water SRF Intended Use Plan.	\$900
Rochester, NH	City of Rochester	Sewer extension project (Colonial Pines) to connect homes currently serviced by septic system to city sewer service in an area with high groundwater and a history of failed septic systems. This ongoing work to reduce septic systems will reduce nitrogen in groundwater and receiving water bodies.	\$5,083

Congressionally Directed Spending Requests Submitted by Senator Jeanne Shaheen to the FY 2022 Labor and Health and Human Services Appropriations Bill

Project Location	Recipient Name	Project Purpose	Amount Requested (in thousands)
Belknap County, NH	Lakes Region Community Services	This congressionally directed spending request would assist the Lakes Region Community Services, the Area Agency for the Lakes Region, with implementing an electronic visit verification system, billing and accounting software and case management and scheduling software. Several of these updates are required as part of a Medicare Corrective Action Plan.	\$275
Berlin, NH	Coos County Family Health Services	Coos County Family Health Services is requesting Congressionally Directed Spending funds to renovate and retrofit a building in downtown Berlin in order to expand their safety net dental clinic and serve more patients in this underserved community.	\$1,500
Carroll, Coos, Grafton and Sullivan Counties, NH	Northern New England Perinatal Quality Improvement	The STONE pilot project would bring together Dartmouth-Hitchcock physicians and experts to provide simulation training for rural emergency room and EMS personnel and will also utilize tele-medicine capabilities to allow rural emergency rooms and EMS real-time connections to neonatal specialists who can help bedside teams with acute care of newborns.	\$192
Cheshire and Hillsborough Counties, NH	Keene State College	Keene State College, in partnership with the Monadnock United Way, is seeking funds to support initiatives to increase both the number and level of training for childcare workers, including training and professional development for current workers. The aim of these initiatives is for higher retention of employees in the field, which will also help to expand childcare availability in the Monadnock Region.	\$3,000

Cheshire, Sullivan, Grafton, Carroll and Coos Counties, NH	Families Flourish Northeast	Families Flourish Northeast seeks funds to build a state of the art residential treatment facility and clinical support program for women where they can also bring their children. Funds would be used to renovate and reconfigure a 3-story living space in Lebanon to house 14 women and their children ages 0-12.	\$1,000
Coos County, NH	Coos Early Childhood Task Force	This congressionally directed spending request would devote funds to the Coos County Childhood Task Force for the purposes of ensuring the sustainability of thirteen high-quality childcare centers in Coos County by changing the financial constructs they currently operate under. This will be done by creating a Childcare Quality Improvement and Sustainability Fund, a regional substitute pool and a Childcare Scholarship Program.	\$600
Grafton and Coos Counties, NH	Littleton Regional Healthcare	Littleton Regional Healthcare has requested funds to help sustain its Obstetric Care Program and maternity ward, the only maternity ward still open in Northwestern New Hampshire. Funding would be used to ensure the continuation of the program and to prevent residents of New Hampshire from having to travel long distances for maternity care.	\$2,000
Hillsborough County, NH	Catholic Medical Center & Saint Anselm College	Catholic Medical Center (CMC) and Saint Anselm College would use Congressionally Directed Spending funds to build a 13,000sq ft. state-of-the-art m healthcare simulation facility in New Hampshire. CMC and Saint Anselm College would renovate and build this center on Manchester's West Side. This facility would be used for healthcare staff, nursing and healthcare students and other stakeholders for on the job training, representations of real life health care events and testing.	\$2,000

Hillsborough County, NH	Stepping Stones	Stepping Stones has requested Congressionally Directed Spending funds to help implement more robust programming for the homeless youth drop-in center it established last year in Nashua. They provide basic needs such as food, showers, clothes and toiletries, but also work with youth to obtain necessary documentation like a driver's license or a copy of a birth certificate.	\$100
Littleton, NH	North Country Health Consortium	This congressionally directed spending request would assist the North Country Health Consortium's efforts to strengthen its grants management capacity. The Consortium would use this one-time allocation of funds to hire a grants manager, fund staff training on grants research and upgrade accounting systems and grant tracking systems.	\$150
Manchester, NH	Southern New Hampshire University	Funds from this request would be used by Southern New Hampshire University to establish a Basic Needs Center on campus to help students, faculty and staff experiencing food insecurity.	\$250
Manchester, NH	Catholic Medical Center	This request aims to improve the space where Catholic Medical Center (CMC) is currently housing involuntarily admitted behavioral health patients "boarding" in the emergency department while they wait for a behavioral health bed to open.	\$500
Manchester, NH	Dismas Home of New Hampshire	Dismas Home has requested funds to help with an outreach campaign to recruit participants in their program. Dismas Home offers a four-phase substance use disorder treatment program for previously incarcerated women. Due to COVID restrictions at jails and prisons, it has been very hard for Dismas Home to recruit new residents and they have been unable to transition existing residents out of the home due to delays in the court system. These funds would help to keep Dismas Home programming afloat with more outreach efforts.	\$25

Manchester, NH	Dartmouth-Hitchcock Health	Dartmouth-Hitchcock is seeking funds to expand the Dartmouth-Hitchcock Outpatient Clinic in Manchester in order to house an expansion of the Children's Hospital at Dartmouth-Hitchcock (CHaD).	\$1,000
Manchester and Hooksett, NH	Southern New Hampshire University	Southern New Hampshire University is requesting funds to undertake a community needs analysis regarding the greatest needs for English language instruction for immigrants and refugees in Manchester. This analysis will inform the university and help them to customize the Intensive English Program at the Center for New Americans. They would also use funds to hire support staff and upgrade the Center's technology and supplies.	\$233
Manchester and Hooksett, NH	Southern New Hampshire University	Southern New Hampshire University is requesting funds to support a feasibility study and community needs assessment on advancing postsecondary opportunities for incarcerated individuals in the state, specifically by looking at the efficacy of a hybrid college degree program for those incarcerated. Funds would be used to support staff working on the study, program expenses and faculty capacity support.	\$170
Manchester, Concord, Laconia and Somersworth, NH	YWCA NH	YWCA NH is seeking funds to enhance trauma-informed training for law enforcement and first responders to ensure they can respond to children who have experienced trauma. Funds would also be used to strengthen ACERT infrastructure, provide more ongoing support for traumatized families and access to a database for closed-loop referrals to services to increase the number of children experiencing trauma who received evidence-based mental health services.	\$750

Manchester, NH	Safari Youth Club	Safari Youth Club has requested funds to expand a wrap-around services program to 45 families in the Manchester area to help facilitate youth by helping parents better understand the school system, combat COVID vaccine hesitancy and connect them to eligible services. They would also like to use funds to run a summer sports camp where they would also teach health education including COVID-19.	\$150
Nashua, NH	Nashua Community College	This request would assist the Nashua Community College in purchasing updated training aids and equipment for a new Aviation Technology Training Center at the Manchester Boston Regional Airport. Nashua's Aviation Technology Program is the only FAA-certified program in the state and this new space will give the college room to expand the program.	\$1,000
Nashua, NH	City of Nashua, Public Health Division	This congressionally directed spending request would support the City of Nashua's Division of Public Health Department and Community Services in purchasing new equipment and supplies for their STD Clinic.	\$25
New London, NH	Colby-Sawyer College	Colby-Sawyer College has requested funds to construct a new, state-of-the-art building for its School of Nursing & Health Sciences Program. This program has expanded over the last few years as Colby-Sawyer has worked with Dartmouth-Hitchcock on a five-year project to expand their partnership to address critical workforce needs. This project will fill a critical need for nursing education to ready the next generation of nurses.	\$1,500
Northfield and Merrimack County, NH	HealthFirst Family Health Center	This project would help HealthFirst Family Health Center, a FQHC serving NH's Lakes Region, to renovate approximately 5,000 sq. ft. at its facility in Franklin. Renovations would include a build out of two additional provider pods allowing space to expand access to primary care and behavioral health. It will also enable the center to	\$1,000

		bring Medication Assisted Treatment (MAT) services on-site.	
Rockingham County, NH	One Sky Community Services	One Sky Community Services, one of NH's 10 Area Agencies for those with developmental disabilities and traumatic brain injuries, would use funds to construct a residential facility with 24/7 care for 6 individuals with developmental disabilities in Northwood, NH.	\$1,000
Statewide, NH	Campus Compact for New Hampshire	This project aims to improve completion rates for NH residents who have left college without a degree. Campus Compact for New Hampshire would use funding to hire a coordinator who will work on several strategies including increasing access to resources, promoting reverse transfer opportunities, addressing racial and ethnic disparities that can lead to drop-out and establishing relationships with local employers to create work pathways for non-completers. Funds would also be used for pilot projects at NH colleges and universities to support bringing non-completers back to campus.	\$325
Statewide, NH	Dartmouth-Hitchcock Health	Dartmouth-Hitchcock is requesting funds in order to establish the Center for Advancing Rural Health to address persistent health disparities in rural communities. This center would work to foster improvements in rural health through research, healthcare design, education, workforce development & community action.	\$448
Statewide, NH	Community Support Network, Inc.	Community Support Network Inc. (CSNI), which represents all of the New Hampshire Area Agencies working with the developmentally disabled community, requests funds to develop a training and professional development program to enhance New Hampshire's Intensive Treatment Services (ITS) workforce. ITS services are meant for individuals with	\$500

		developmental disabilities who also have high-risk behaviors including problematic sexual behaviors, arson or aggression towards others.	
Statewide, NH	Early Learning New Hampshire	This congressionally directed spending request would support collective efforts led by the New Hampshire Child Care Advisory Council, the New Hampshire Association for the Education of Young Children and the State Early Learning Alliance of New Hampshire to strengthen the core network of organizational supports for the childcare field in the state.	\$414
Strafford County, NH	Wentworth-Douglass Hospital	Wentworth-Douglass Hospital would use these funds to expand its Care Van Program, which assists in helping bring patients to medical appointments when they have no other means of transportation. The Care Van program is designated for patients who are unable to provide for his or her own transportation; have no other regular, reliable, and appropriate means of transportation, either public or private (such as by bus, family members, or friends), and; do not have insurance that will pay for transportation services such as the VA, Medicare, Medicaid, Triplink, nor qualify for any other transportation service.	\$500
Sullivan County, NH	Sullivan County	This request aims to help Sullivan County as it undertakes a renovation of the Sullivan County Nursing Home in Unity. Sullivan County aims to expand the square footage of the campus by 50%, modernize the campus and update plumbing and heating infrastructure.	\$2,000
Sullivan and Grafton Counties, NH	TLC Family Resource Center	TLC Family Resource Center aims to expand their current services around Adverse Childhood Experiences to better integrate family strengthening and peer recovery strategies that address the impact of Substance Use Disorder on child outcomes.	\$350

Whitefield, NH	Ammonoosuc Community Health Services	Ammonoosuc Community Health Services (ACHS) would use funds to renovate the 2nd floor of the organization's space in Whitefield, NH which will allow for increased access to Substance Use Disorder, behavioral health, nutrition and patient navigational services.	\$500

United States Senate

WASHINGTON, DC 20510

June 23, 2021

The Honorable Patrick Leahy
Chairman
Committee on Appropriations
United States Senate
S-128, The Capitol
Washington, DC 20510

The Honorable Richard Shelby
Vice Chairman
Committee on Appropriations
United States Senate
S-128, The Capitol
Washington, DC 20510

The Honorable Brian Schatz
Chair
Subcommittee on Transportation
HUD, and Related Agencies
Committee on Appropriations
United States Senate
Washington, D.C. 20510

The Honorable Susan Collins
Ranking Member
Subcommittee on Transportation,
HUD, and Related Agencies
Committee on Appropriations
United States Senate
Washington, D.C. 20510

Dear Chairman Leahy, Vice Chairman Shelby, Chairman Schatz and Ranking Member Collins:

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2022 Transportation, Housing and Urban Development and Related Agencies, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate.

Sincerely,

Jeanne Shaheen
United States Senator

Congressionally Directed Spending Requests Submitted by Senator Jeanne Shaheen to the FY 2022 Transportation Housing and Urban Development Appropriations Bill

Project Location	Recipient Name	Project Purpose	Amount Requested (in thousands)
Bedford, NH	Bedford Historical Society	This congressionally directed spending request would provide funding to support the Bedford Historical Society (BHS) in its efforts to continue rehabilitating the former Stevens-Buswell School in order to open it as a new community center.	\$300
Bethlehem, NH	Colonial Theatre	This congressionally directed spending request would fund the installation of an heating, ventilation and air conditioning (HVAC) system at the Colonial Theatre in Bethlehem, New Hampshire.	\$100
Concord and Penacook, NH	CATCH Neighborhood Housing	CATCH is requesting a \$250,000 federal appropriation to cover the anticipated unbudgeted COVID-19 pandemic-related increases in material costs. This funding will ensure that the Rosemary’s Way residential development in Penacook is completed on time and as planned, creating 42 new low-to moderate-income housing units in Concord. Rosemary’s Way construction is slated to be completed in January 2022. This funding will enable CATCH to keep Rosemary’s Way development on schedule and within the current financing structure. Concord is in significant need of additional affordable housing inventory. The vacancy rate for two-bedroom units in Concord is 1.4 percent, compared to a regional vacancy rate of 5 percent and a national rate of 7 percent. At the same time, the median gross rent in Concord is \$1,262 –nearly 20 percent higher than it was just five years ago.	\$250

Concord, NH	City of Concord	<p>This funding would go toward widening the existing piers supporting the Loudon Road Bridge in Concord. This widening will allow for a sidewalk on one side, shoulders on each side for bicycle use, a five-lane travel way section with a 4-foot median, and a 14-foot multi use path on the north side of the bridge. The project will make crossing the river safer for all modes of transportation, while alleviating what is currently a chokepoint to and from downtown and west Concord. The bridge improvement will also provide the needed infrastructure to link the two ends of the proposed Merrimack River Greenway Trail, which will provide a 12 mile multi-purpose paved trail from the Pembroke town line to Boscawen.</p>	\$1,000
Concord, NH	City of Concord	<p>Funding for this request will provide for the engineering and construction of a multi-modal boulevard in order to link the Horseshoe Pond Corporate Park to downtown Concord. The Horseshoe Pond Corporate Park is home to dozens of businesses, hundreds of employees and the Grappone Conference Center. Currently, in order to travel from this location ½ miles to downtown Concord, one must either take I-393 or take a circuitous 2.5 mile surface road journey through the NHTI campus. Results from a city-commissioned traffic study show that building this boulevard, known as the Storrs Street Extension, would relieve traffic off North Main Street and provide increased access for hundreds of cyclists and pedestrians per day. In addition, the boulevard itself will provide numerous development opportunities in adjacent lots and restore a currently blighted area of Concord.</p>	\$1,000
Dover, NH	City of Dover	<p>This request is for funding to replace the decking of the Chestnut Street Bridge in Dover. In addition, funding would be used to widen the sidewalk along the bridge in order to improve pedestrian use and allow for proper</p>	\$650

		<p>snow plowing. Smart signal technology will also be installed to control the crosswalk at the end of the bridge and improve safety for pedestrians.</p>	
Dover, NH	City of Dover	<p>Funding this request would provide for the complete reconstruction of Central Avenue, the main thoroughfare in Dover. The project would follow “Complete Street” policy guidelines, ensuring safety for all road users and pedestrians. Specific construction would be for road resurfacing, stormwater drainage, bicycle and pedestrian amenities, intersection improvements with lighting and intelligent traffic signalization. This project will provide improved pedestrian and bicycling facilities in this area, and improved utility connections with new water and stormwater infrastructure will improve the quality of life and economic vitality of the area.</p>	\$2,000
Dover, NH	City of Dover	<p>This congressionally directed spending request would provide funding to extend a multi-use trail to connect Dover Middle and High School with local lower income multifamily apartments to provide a safe bike/walk route to school for local students.</p>	\$650
Grafton and Coos Counties, NH	Affordable Housing, Education and Development, Inc.	<p>This funding would support AHEAD, a nonprofit community development corporation based in Littleton, New Hampshire, in a project to create up to 150 newly constructed, affordable housing units on a 77-acre, in-town site with 29 acres designated for conservation and recreational uses and up to 17 acres designated for use as the site of a new elementary school. Funding would be for the acquisition of this site and for infrastructure development including construction of roadways, water and sewer systems and underground electrical systems. This project would help address the significant affordable housing shortage in the North Country.</p>	\$970

Hillsborough and Rockingham Counties, NH	Nashua Soup Kitchen & Shelter	This funding would support the Nashua Soup Kitchen and Shelter (NSKS) in renovating the old Sacred Heart elementary school at 35 Spring St. to serve as an emergency shelter and permanent housing for individuals experiencing homelessness. The shelter will provide space for families with children, single adult men, and single adult women. In addition, 11 units of permanent housing for single adults will be provided. Emergency childcare for families experiencing homelessness, healthcare services to be provided by the local Community Health Center, and job training will all be provided on site.	\$900
Hillsborough and Rockingham Counties, NH	Manchester-Boston Regional Airport	The Manchester-Boston Regional Airport (MHT) has undertaken a public-private partnership to develop up to a 100,000 square-foot air cargo facility, with a private developer funding the building and related work, and MHT funding the aircraft apron, taxiway connectors, utility relocation, and an access road. The partnership leverages private investment to bring much needed air cargo capacity and high paying jobs to New Hampshire. The cost of the Airport's share of the project is significant and, without federal assistance, will require the Airport to issue bonds to construct the apron, which will increase the cost of the project and be counterproductive to the efforts the Airport has undertaken to lower airline operating costs.	\$15,000
Hillsborough County, NH	Waypoint	This proposed project would fund Waypoint's work in Manchester to open the first ever emergency shelter and dedicated permanent housing units for youth and young adults in NH. Opening an emergency shelter and permanent housing requires significant investment. While Waypoint has launched an aggressive fundraising campaign and the Manchester Board of Mayor and Alderman have approved a request from Waypoint for nearly \$730,000 in Community Improvement	\$771

		Program funding for the shelter, to be able to complete this project requires a federal appropriation.	
Hooksett, NH	Town of Hooksett	Funding provided through this CDS request would support the Town of Hooksett in expanding its sewer system in the west side of the town between Exits 10 and 11 of Route 93. The new sewer system will allow for increased flows for the existing businesses and promote development for potential businesses requiring higher sewer flows.	\$1,500
Keene, NH	City of Keene	The project intends to renovate the City of Keene's existing Recreation Center's restrooms to meet ADA requirements, improve the Heating Ventilation and Air Conditioning (HVAC) systems to provide greater energy efficiency within the building and improvements to the lobby which connects these two spaces.	\$334
Lebanon, NH	City of Lebanon	This request would fund renovations of a former school building to convert it into a Community Center in a distressed area of Lebanon, New Hampshire.	\$750
Londonderry, NH	Town of Londonderry	Funding provided through this CDS request would support the Town of Londonderry in their construction of a sewer pump station and associated infrastructure to provide sanitary sewer service for future economic development in the area around New Hampshire Exit 4A along I-93.	\$1,050
Manchester, NH	Manchester Housing and Redevelopment Authority	This funding would support the Manchester Housing and Redevelopment Authority (MHRA) in conducting pre-development activities that will enable the agency to meet its due diligence, complete engineering and site work design, architectural design and bid documents to substantially rehabilitate Kelley Falls Apartments, a post-WWII public housing development in Manchester comprised of 132 units.	\$1,000

Manchester, NH	Victory Women of Vision	Victory Women of Vision (VWV) is a Manchester-based nonprofit dedicated to helping immigrants and refugees resettle in NH. Funding for this project would assist VWV in establishing a center to centralize their services for immigrant populations. These services include financial support, access to information and communication (translation, interpretation) services. The center will also have a cultural food pantry and serve as a community/information center.	\$500
Merrimack County, NH	City of Concord, Community Development Department	Funding for this project would go toward street improvements of a 1-mile stretch of Manchester Street to create a three lane section with a dedicated two-way left turn lane for businesses and neighborhood access. Consistent with the City’s complete streets policy, a 5-foot bike shoulder will constructed along with a 5-foot paved sidewalk and grassed buffer. Right-of-Way to accommodate a future five-lane roadway, if required in the future, will be acquired as part of the project as well. Selected water and sewer main and service line improvements will also be constructed to allow stormwater infiltration providing water quality improvements and reducing peak discharges. The project has been fully designed and engineered by the City.	\$1,000
Nashua, NH	City of Nashua	This funding would support improvements to Walnut Street in Nashua. The Walnut Street “Oval” is the result of 1950s urban renewal, and has led to a lack of circulation, prohibition of vehicular movement, and an unsafe situation for pedestrians. This project would tighten the impacted intersections, reintroduce sidewalks, realign the roadways to connect them and allow for traffic flow, create new intersections, and install signaling. Combined, these improvements will reintroduce a street grid that allows traffic to move efficiently and vastly improve pedestrian safety. Early conceptual and engineering studies	\$3,000

		have been completed with the design phase beginning immediately upon receiving funding.	
Nashua, NH	City of Nashua	Funding for this request would provide necessary, rehabilitative upgrades to the Taylor Falls Bridge in Nashua, which are intended to prevent a much more costly, and more disruptive, complete replacement of the deck within the next decade. This is a heavily trafficked bridge and an important connection over the Merrimack River. A disruption to travel over this bridge could force travelers from communities on both sides of the river to travel miles out of the way to one of the other crossings to the north or south.	\$2,700
Nashua, NH	City of Nashua	This congressionally directed spending request would provide funding to support efforts to construct a plaza around the Nashua Public Library in Nashua, New Hampshire. The plaza will provide a public gathering space as well as areas for sports, public art and performances and events.	\$500
Newport, NH	Town of Newport	This congressionally directed spending (CDS) project will enable the Parlin Field Airport in Newport, New Hampshire to completely resurface its 3,400 ft. runway to ensure continued safe, sustainable usage by local residents, tourists and businesses.	\$650
Portsmouth, NH	NH Community Loan Fund	This CDS request would help the NH Community Loan Fund provide affordable housing for low- and very low-income families in Portsmouth. Funding would go toward development of an existing manufactured housing cooperative known as the Woodbury Cooperative. Development activities would include removing abandoned, dilapidated commercial buildings, improving water and sewer infrastructure, reorienting two manufactured homes to improve spacing for fire safety, the addition of four new affordable homes and the	\$343

		widening of the shared driveway to accommodate fire trucks and ambulances.	
Statewide, NH	Strafford Regional Planning Commission (SPRC)	This request would fund each of the nine New Hampshire Regional Planning Commissions' efforts to prepare a new regional housing needs assessment (RHNA) and update their comprehensive plans which were last updated in 2015. This statewide update of RHNAs by each region will provide needed information such as an analysis of housing supply and demand, and fair share housing calculations that communities and agencies require for their own planning efforts.	\$950
Statewide, NH	New Hampshire Judicial Branch	The funds obtained through this request would be used to expand the landlord-tenant mediation pilot program statewide so that all New Hampshire residents, regardless of location, can use mediation. Currently, only landlords and tenants who have cases in either Concord or Claremont Circuit Courts are able to mediate their cases. Additional funding will be used to expand the capacity of the program so that it can be offered in all 31 district divisions in New Hampshire. Mediation promotes housing stability and expanding this program would provide tenants and landlords across NH access to this useful and stabilizing program.	\$556
Strafford and Rockingham Counties, NH	Seacoast Family Promise	This CDS request would support the development of affordable housing facilities in Strafford and Rockingham counties to provide permanent supportive housing for families with children.	\$1,000
Strafford and Rockingham Counties, NH	Our Place, Inc.	The funding from this CDS request will allow Our Place to hire an architect to consult with in evaluating potential properties for purchase and renovation that will provide permanent supported housing and services to adults with developmental disabilities in Seacoast, New Hampshire. Our Place will offer a	\$7

		<p>combination of housing choices of one- and two-bedroom apartments, each with their own kitchen and bathroom. 24-hour support will be available as needed and accessibility will be maximized across the property. Our Place will be built to accommodate people with a wide range of support needs. The property will have a large kitchen for optional group meal prep and family-style dining as well as a living space. Funding will allow One Place to hire an architect, skilled in ADA and accessibility, to help the organization evaluate potential properties suitable for this project.</p>	
Strafford County, NH	Easter Seals of New Hampshire, Inc.	<p>Easterseals will use the funds towards building modernization, a modest expansion and accessibility improvements to the Champlin House senior community center. Funds will support engineering, architectural services and construction of physical improvements. Expected outcomes would be interior modifications and expansion to create larger, more spacious program areas, the addition of an elevator, upgraded/new bathroom facilities, and improvement of meal preparation capacity.</p>	\$1,000
Strafford County, NH	Community Action Partnership of Strafford County	<p>This funding would support the Community Action Partnership of Strafford County (CAPSC) to consolidate its separate anti-poverty programs within one facility in Dover. CAPSC partnered with the Housing Partnership to create 42 workforce housing units, and CAPSC occupies 17,000 square feet of commercial space on the ground floor with Head Start, homeless and housing programs, fuel assistance and administrative services. Project funding would eliminate CAPSC's mortgage on this property and provide additional reductions in expenditures on utilities, phone service, and technology. The dollars saved would be reinvested back into its programs and would contribute to the</p>	\$1,000

long-term sustainability of the organization.
